### Words from Our Customers

"I had developed bad skin problems on my face due to food allergies, which were diagnosed during the past year. Making healthy dietary changes helped a lot but I still had a hard time trying to find cleansers/moisturizers that wouldn't irritate the sensitivity of my skin. No matter what products I used (even the ones claiming to be raw and vegan), I would get some kind of uncomfortable reaction, either slight or more pronounced. I recently purchased one of your MM products, the Feng Shea Facial Scrub, and have used it repeatedly with no reaction ... absolutely none! My skin felt totally normal and very nicely hydrated — no tingling, burning, itching or redness at all. I am really thrilled and optimistic now."— Sarah

"Straight soap was always much too harsh for washing my face, yet cream-base cleansers—even the over-the-top hyped, expensive department store brands—never left my skin feeling really clean. I also wanted to be able to gently exfoliate, so that I could be totally sure everyday pollutants were thoroughly removed from my face before bedtime. Well.... guess what? I found Morocco Method Feng Shea Scrub and this excellent product does it all: gentle but very deep cleansing, purifying and moisturizing. Although at this point I'm in the 'mature skin' category, as a result of using Feng Shea nightly my face feels as soft as a newborn baby's behind!" — B. J.
