

## 5 ELEMENTS FOAM FREE DOG SHAMPOO

---

Morocco Method 5 Elements Foam Free Dog Shampoo combines green tea, minerals and botanicals from around the world to gently cleanse skin and coat removing excess oils and toxins, giving coat a natural luxurious shine. Its unique formulation dynamically assists in repelling fleas and ticks and helps to alleviate symptoms of dermatitis and other skin ailments.

Its main ingredient, montmorillonite clay, is a naturally forming French clay that draws out impurities from the roots and follicles leaving coat thicker and fuller. Raw apple cider vinegar, green tea and lavender deliver essential vitamins and anti-oxidants to balance moisture, reduce inflammation of the skin and leave pet smelling fresh.

Cat and horse friendly.

### How to Use

Perfect shampooing requires washing twice. The first wash loosens debris, dead skin cells, and excess oils from the skin and coat. The second wash flushes all the loosened material out, allowing the shampoo to nourish the coat.

Massage shampoo into wet fur avoiding eyes, mouth and nose of pet. There will be no foam. Rinse thoroughly. *If sensitivities occur consult your veterinarian.*

### Ingredients
